

# NYS Public Employer Health Emergency Planning Template

This template has been provided free of charge by **Emergency Preparedness Solutions, LLC** for use only by public employers in New York State to meet the requirements of legislation (S8617B/A10832) signed into law by the Governor on September 7, 2020. **Emergency Preparedness Solutions, LLC** shall be held harmless for the use of this template, inclusive of any errors or omissions herein, as well as any information entered by third parties. It is the responsibility of public employers to ensure that plans developed using this template meet the requirements of the aforementioned legislation.

If you wish to engage **Emergency Preparedness Solutions** for support in developing this plan or for other emergency preparedness activities, please visit our website at [www.epslc.biz](http://www.epslc.biz) for additional information.

## **Template Instructions:**

- **Assemble a planning team!** The planning team should include, as applicable, executive leadership, operations managers/department heads, finance managers, human resources, information technology, managers of other relevant units, and labor union representatives. Be sure to involve your emergency manager/safety lead if you have one or include the emergency manager from the most applicable jurisdiction.
- This is *your* plan! While this template provides suggested guidance and structure, review the document carefully and modify it for your own use.
- **Text highlighted in yellow must be replaced** per the description provided. Be sure to remove the highlight and other text or symbols.
- Some **adjustment to the template** may be needed in terminology or narrative to best accommodate your needs and circumstances. This template has been built for application by all public employers, regardless of size or organization type.
- This template was built on the most current version of Microsoft Word. Formatting may not be preserved if opened with earlier versions.
- This template alone does not provide all information for the plan – your planning team must develop the required protocols which will work for your organization.
- **Text highlighted in green** provides instruction or guidance specific to a certain content area. Be sure to delete this before publication.
- **Text highlighted in purple** is provided as an example. Be sure to delete this before publication.
- Delete this page prior to publication.
- Be sure to right click on the table of contents and select ‘update field’ and ‘update entire table’ prior to publication
- Provide a draft of the plan to applicable labor representatives for review and comment in accordance with S8617B/A10832
- Respond to labor union comments in writing in accordance with S8617B/A10832
- Remove the DRAFT watermark (Design/Watermark/Remove Watermark)
- Publish the final plan in accordance with S8617B/A10832

# Public Employer Health Emergency Plan for the **Village of Youngstown**

DRAFT

date of approved plan

This plan has been developed in accordance with NYS legislation S8617B/A10832

DRAFT

## Promulgation

This plan has been developed in accordance with the amended New York State Labor Law section 27-c and New York State Education Law paragraphs k and l of subdivision 2 of section 2801-a (as amended by section 1 of part B of chapter 56 of the laws of 2016), as applicable.

This plan has been developed with the input of NYS Teamsters local #264, as required by the amended New York State Labor Law.

No content of this plan is intended to impede, infringe, diminish, or impair the rights of us or our valued employees under any law, rule, regulation, or collectively negotiated agreement, or the rights and benefits which accrue to employees through collective bargaining agreements, or otherwise diminish the integrity of the existing collective bargaining relationship.

This plan has been approved in accordance with requirements applicable to the agency, jurisdiction, authority, or district, as represented by the signature of the authorized individual below.

**ESSENTIAL Worker is defined as public employee or contractor that is required to be physically present at a work site to perform his or her job.**

**NON ESSENTIAL Worker is defined as public employee or contractor that is not required to be physically present at the work site to perform his or her job.**

--

As the authorized official of the Village of Youngstown, I hereby attest that this plan has been developed, approved, and placed in full effect in accordance with S8617B/A10832 which amends New York State Labor Law section 27-c and New York State Education Law paragraphs k and l of subdivision 2 of section 2801-a (as amended by section 1 of part B of chapter 56 of the laws of 2016), as applicable, to address public health emergency planning requirements.

Signed on this day: **date**

## Purpose, Scope, Situation Overview, and Assumptions

### Purpose

This plan has been developed in accordance with the amended New York State Labor Law section 27-c and New York State Education Law paragraphs k and l of subdivision 2 of section 2801-a (as amended by section 1 of part B of chapter 56 of the laws of 2016), as applicable. These laws were amended by the passing of legislation S8617B/A10832 signed by the Governor of New York State on September 7, 2020, requires public employers to adopt a plan for operations in the event of a declared public health emergency involving a communicable disease. The plan includes the identification of essential positions, facilitation of remote work for non-essential positions, provision of personal protective equipment, and protocols for supporting contact tracing.

### Scope

This plan was developed exclusively for and is applicable to the Village of Youngstown. This plan is pertinent to a declared public health emergency in the State of New York which may impact our operations; and it is in the interest of the safety of our employees and contractors, and the continuity of our operations that we have promulgated this plan.

### Situation Overview

On March 11, 2020 the World Health Organization declared a pandemic for the novel coronavirus which causes the COVID-19 severe acute respiratory syndrome. This plan has been developed in accordance with amended laws to support continued resilience for a continuation of the spread of this disease or for other infectious diseases which may emerge and cause a declaration of a public health emergency.

The health and safety of our employees and contractors is crucial to maintaining our mission essential operations. We encourage all employees and contractors to use [CDC Guidance for Keeping Workplaces, Schools, Homes, and Commercial Establishments Safe](#). The fundamentals of reducing the spread of infection include:

- Using hand sanitizer and washing hands with soap and water frequently, including:
  - After using the restroom
  - After returning from a public outing
  - After touching/disposing of garbage
  - After using public computers, touching public tables, and countertops, etc.
- Practice social distancing when possible
- If you are feeling ill or have a fever, notify your supervisor immediately and go home
- If you start to experience coughing or sneezing, step away from people and food, cough or sneeze into the crook of your arm or a tissue, the latter of which should be disposed of immediately
- Clean and disinfect workstations at the beginning, middle, and end of each shift
- Other guidance which may be published by the CDC, the State Department of Health, or County health officials.

### Planning Assumptions

This plan was developed based on information, best practices, and guidance available as of the date of publication. The plan was developed to largely reflect the circumstances of the current Coronavirus pandemic but may also be applicable to other infectious disease outbreaks.

The following assumptions have been made in the development of this plan:

- The health and safety of our employees and contractors, and their families, is of utmost importance
- The circumstances of a public health emergency may directly impact our own operations.
- Impacts of a public health emergency will take time for us to respond to, with appropriate safety measures put into place and adjustments made to operations to maximize safety
- The public and our constituency expects us to maintain a level of mission essential operations
- Resource support from other jurisdictions may be limited based upon the level of impact the public health emergency has upon them
- Supply chains, particularly those for personal protective equipment (PPE) and cleaning supplies, may be heavily impacted, resulting in considerable delays in procurement
- The operations of other entities, including the private sector (vendors, contractors, etc.), non-profit organizations, and other governmental agencies and services may also be impacted due to the public health emergency, causing delays or other disruptions in their services
- Emergency measures and operational changes may need to be adjusted based upon the specific circumstances and impacts of the public health emergency, as well as guidance and direction from public health officials and the governor
- Per S8617B/A10832, 'essential employee' is defined as a public employee or contractor that is required to be physically present at a work site to perform their job
- Per S8617B/A10832, 'non-essential employee' is defined as a public employee or contractor that is not required to be physically present at a work site to perform their job

## Concept of Operations

The Mayor of the Village of Youngstown, their designee, or their successor holds the authority to execute and direct the implementation of this plan. Implementation, monitoring of operations and adjustments to plan implementation may be supported by additional personnel, at the discretion of the Mayor.

Upon the determination of implementing this plan, all employees and contractors of the Village of Youngstown shall be notified by phone and email, with details provided as possible and necessary, with additional information and updates provided on a regular basis. Residents of the Village of Youngstown will be notified of pertinent operational changes by way of publication on the Village website, the Village Facebook page and/or written publication. Other interested parties, such as vendors, will be notified by phone and/or email as necessary. The Mayor and Clerk-Treasurer will maintain communications with the public and constituents as needed throughout the implementation of this plan.

The Mayor of the Village of Youngstown, their designee, or their successor will maintain awareness of information, direction, and guidance from public health officials and the Governor's office, directing the implementation of changes as necessary.

Upon resolution of the public health emergency, the Mayor of the Village of Youngstown, their designee, or their successor will direct the resumption of normal operations or operations with modifications as necessary.

## Mission Essential Functions

When confronting events that disrupt normal operations, the Village of Youngstown is committed to ensuring that essential functions will be continued even under the most challenging circumstances.

Essential functions are those functions that enable an organization to:

1. Maintain the safety of employees, contractors, and our constituency
2. Provide vital services
3. Provide services required by law
4. Sustain quality operations
5. Uphold the core values of the Village of Youngstown

The Village of Youngstown has identified as critical only those priority functions that are required or are necessary to provide vital services. During activation of this plan, all other activities may be suspended to enable the organization to concentrate on providing the critical functions and building the internal capabilities necessary to increase and eventually restore operations. Appropriate communications with employees, contractors, our constituents, and other stakeholders will be an ongoing priority.

Essential functions are prioritized according to:

- The time criticality of each essential function
- Interdependency of a one function to others
- The recovery sequence of essential functions and their vital processes

Priority 1 identifies the most essential of functions, with priority 4 identifying functions that are essential, but least among them.

The mission essential functions for the Village of Youngstown have been identified as:

Complete the table below by identifying each essential function with a description and identified priority. Provide as much detail as necessary to identify and describe each function. You may press TAB to advance through the table and to add rows if needed. The purple highlighted text is provided as an example. While this is not a requirement of the plan, it will help you in the identification of essential personnel.

| Essential Function                                | Description   | Priority |
|---|---|----------|
| Information Technology/can be remote              | Provides all hardware and software for the Village. Maintains the Village's network and assists with phone system.                                  | 1        |
| DPW /essential on site                            | Provides vital services to the Village-plow ,water/sewer repair , maintenance, brush, lift stations, road repair, water samples and reads, cleaning | 1        |
| Police Department essential on site               | Provides patrols and enforces order   | 1        |
| Mayor/Board/can be remote                         | Makes decisions on plan implementations   | 1        |
| Clerk's Office/Can be remote                      | Communications staff/residents, paperwork processing staff residents  | 1        |
| Building Inspector/Code Enforcement/can be remote | Code violations/emergencies, issue new permits, inspections   | 1        |
| Youngstown Vol Fire Co                            | Fire protection, EMS/EMT services, emergency scene coordination   | 1        |

## Essential Positions

Each essential function identified above requires certain positions on-site to effectively operate. The table below identifies the positions or titles that are essential to be staffed on-site for the continued operation of each essential function. Note that while some functions and associated personnel may be essential, some of these can be conducted remotely and do not need to be identified in this section.

Using the same list of essential functions you identified above, identify the essential positions or titles (not people by name) that are necessary to the continued operation of that function. Provide a justification for each position, answering the question 'Why must this position be staffed on-site?'. The purple highlighted text is provided as an example.

| Essential Function                  | Essential Positions/Titles  | Justification for Each   |
|-------------------------------------|---|--|
| Information Technology              | <ul style="list-style-type: none"> <li>Manager</li> </ul>   | The IT manager establishes all priorities for IT tasks. IT person can be remote.   |
| All DPW Staff                       | <ul style="list-style-type: none"> <li>Superintendent, MEO, Laborer</li> </ul>                          | All DPW functions  |
| Clerk's Office                      | <ul style="list-style-type: none"> <li>Clerk-Treasurer, Deputy Clerk-Treasurer, Deputy Clerk</li> </ul> | All communications with residents, staff and Board. Paperwork processing, payment processing, permits, billing. Clerk-Treasurer and Deputy can be remote for these functions |
| Mayor/Board Attorney                | <ul style="list-style-type: none"> <li>Mayor, Trustees Attorney</li> </ul>                              | Decision making, handle legal matters. Can be remote.  |
| Building Inspector/Code Enforcement | <ul style="list-style-type: none"> <li>Building Inspector/Code Enforcement Officer</li> </ul>           | Emergences, inspections. Code violations, permits. Can conduct paperwork remotely.   |
| Police Dept.                        | <ul style="list-style-type: none"> <li>Chief/Sergeant/Officers</li> </ul>                               | Patrol Village, handle emergencies, keep order   |
| Youngstown Vol Fire Co              | <ul style="list-style-type: none"> <li>Chief</li> </ul>   | Crew coordination/dispatching emergency services, fire, EMS/EMT  |

It is important to note that Justice Court is a vital component of town government, with Justice Court functions budgeted and supported by the Town Board and Town Supervisor. However, we recognize that the New York State Office of Court Administration holds dominion over Justice Courts and, as such, may issue orders which suspend or alter the hours of operation or means by which Justice Courts operate; which may not fully align with this plan or other measures taken by the Town Board or Town Supervisor. As such, the Town Board, Town Supervisor, and Town Clerk will coordinate as necessary with Justice Court personnel to ensure safe and effective continuity of town Justice Court.

## Reducing Risk through Remote Work and Staggered Shifts

Through assigning certain staff to work remotely and by staggering work shifts, we can decrease crowding and density at work sites and on public transportation

## Remote Work Protocols

Non-essential employees and contractors able to accomplish their functions remotely will be enabled to do so at the greatest extent possible. Working remotely requires:

1. Identification of staff who will work remotely
2. Approval and assignment of remote work
3. Equipping staff for remote work, which may include:
  - a. Internet capable laptop
  - b. Necessary peripherals
  - c. Access to VPN and/or secure network drives
  - d. Access to software and databases necessary to perform their duties
  - e. A solution for telephone communications
    - i. Note that phone lines may need to be forwarded to off-site staff

Provide detail here to the protocols which will be used to implement the steps identified above. Consider chain of command and approving authorities, who is responsible for implementation of activities, availability of technology, troubleshooting, and equipment accountability. Think about workflow of all personnel working remotely to ensure they will be able to accomplish their duties.

### Remote Work:

Clerk's Office. Clerk-Treasurer will set in office schedule. Clerk-Treasurer and Deputy Clerk-Treasurer have remote access to all Village software systems necessary to handle all required work flow. Phone can be checked remotely. A drop box is available for correspondence with the Office as needed. To adhere to capacity requirements from NYS, the Clerk's Office will work a combination of remote and in office hours as required and determined by the Clerk-Treasurer. Activities for the Office can be carried out without interaction with vendors and residents and other staff through fax, mail, email, phone, and drop box. After screening questions if an in person transaction is required, an appointment may be set by the Clerk's Office following all required protocol at the discretion of the Clerk-Treasurer.

Building Inspector/Code Enforcement. The Building Inspector/Code Enforcement Officer will determine his necessity to be in the office to handle paperwork for permits as needed. The Clerk's Office will communicate via phone, text and emails to facilitate required paperwork.

IT. Contracted IT person is available by phone, text and email, and is able to remote to equipment to troubleshoot any issues. Access to the building can be arranged if needed.

Mayor/Board. All are accessible by phone, text and email for any required information.

Attorney. Attorney is available by phone, text, email for any matters required.

As possible, 'essential' staff may be assigned to work remotely for part of their work week to reduce exposures. Further, business hours and locations of Village government may be altered to best accommodate public health protective actions for employees and the public. Alterations to building access and the means by which the public interacts with Village employees may also take place to support these protections. Protective actions may include, but are not limited to occupancy restrictions, protective barriers, and increased conduct of business by internet, phone, or other means. Protective actions will be taken in accordance with County and State Health Department, and CDC guidelines and requirements.

The Municipal Building shall be closed and remained locked for the safety of Village staff, the tenants of the building, community groups using the building and residents. DPW, Police, Building Inspector/Code Enforcement, Trustees, Cleaning Contractor, and Mayor all have keys to the building and can enter following protocol as deemed necessary. When entering the building the person entering is responsible to ensure the door is re-locked and remains locked at all times. The Clerk's Office will determine if an in person appointment is required to carry out Village business and after screening questions and protocol checks may set appointments to conduct such business. Clerk's Office staff will allow entrance to tenants as needed and approved (Historical Society, Community Groups). The Library tenant has keys to the building and will enter on their schedule following the requirements set forth by the Mayor/ Board for building use. The Library must ensure all doors remained locked at all times.

### Staggered Shifts

Implementing staggered shifts may be possible for personnel performing duties which are necessary to be performed on-site but perhaps less sensitive to being accomplished only within core business hours. As possible, management will identify opportunities for staff to work outside core business hours as a strategy of limiting exposure. Regardless of changes in start and end times of shifts, the Village of Youngstown will ensure that employees are provided with their typical or contracted minimum work hours per week. Staggering shifts requires:

1. Identification of positions for which work hours will be staggered
2. Approval and assignment of changed work hours

Provide detail here to the protocols which will be used to implement the steps identified above. Consider chain of command and approving authorities, building access and status of utilities off of core hours, and security off of core hours.

Staggered shifts DPW: A staggered work day can be assigned as needed to avoid employees being in contact with each other at the same time. The Superintendent will assign the staggered shifts as needed/required. Work will be assigned with protocols being followed to keep interaction at a minimum between employees and or vendors.

The Police Chief/Sergeant will schedule Officers as needed with safety of the employees in mind. One officer will be assigned per car.

The Youngstown Volunteer Fire Company Chief will be responsible for all protocol for coordinating services and handling staffing. The Youngstown Volunteer Fire Company has procedures documented and in place. A copy of their protocol is on file in the Village Office.

### Personal Protective Equipment

The use of personal protective equipment (PPE) to reduce the spread of infectious disease is important to supporting the health and safety of our employees and contractors. PPE which may be needed can include:

- Masks
- Face shields
- Gloves

- Disposable gowns and aprons
- Sanitizer

Note that while cleaning supplies are not PPE, there is a related need for cleaning supplies used to sanitize surfaces, as well as hand soap and hand sanitizer. The Coronavirus pandemic demonstrated that supply chains were not able to keep up with increased demand for these products early in the pandemic. As such, we are including these supplies in this section as they are pertinent to protecting the health and safety of our employees and contractors.

Protocols for providing PPE include the following:

1. Identification of need for PPE based upon job duties and work location
2. Procurement of PPE
  - a. As specified in the amended law, public employers must be able to provide at least two pieces of each required type of PPE to each essential employee and contractor during any given work shift for at least six months
  - b. Public employers must be able to mitigate supply chain disruptions to meet this requirement
3. Storage of, access to, and monitoring of PPE stock
  - a. PPE must be stored in a manner which will prevent degradation
  - b. Employees and contractors must have immediate access to PPE in the event of an emergency
  - c. The supply of PPE must be monitored to ensure integrity and to track usage rates

Provide detail here to the protocols which will be used to implement the steps identified above. Consider the variety of PPE required and how needs will be identified. Consider established suppliers (list suppliers, contract numbers, contact information, etc.), and ensure you have backups. While cleaning supplies are not a requirement of the new law, it is suggested that they are included here as well. Reference applicable emergency procurement procedures as needed. How much PPE will you maintain on hand? Where will it be stored? Who will have immediate access to it? Who is responsible for monitoring and maintaining the stock of PPE? A stockpile of eight weeks of PPE is recommended.

The Clerk's Office will coordinate required PPE, Department Heads should report to the Clerk what PPE and/or supplies they have. Departments will be distributed the PPE as needed. The DPW has an inventory of sanitizer and masks at the garage location. The Police Department has an inventory of PPE on hand. The Clerk's Office has an inventory of PPE.

Contractor Magic Carpet Cleaning is in the Village Center six days a week for cleaning and sanitizing the Village Center with his own supplies.

Two sanitizing fogger guns and disinfecting solution have been purchased. One gun is in the Clerk's Office and one is at the DPW garage. The guns will be used to fog/sanitize work areas as part of the cleaning/sanitization process.

The Youngstown Volunteer Fire Co will be responsible for its own PPE supply, coordinating, ordering funding.

## Staff Exposures, Cleaning, and Disinfection

### Staff Exposures

Staff exposures are organized under several categories based upon the type of exposure and presence of symptoms. Following CDC guidelines, we have established the following protocols:

- A. If employees or contractors are exposed to a known case of communicable disease that is the subject of the public health emergency (defined as a 'close contact' with someone who is confirmed infected, which is a prolonged presence within six feet with that person):
  1. Potentially exposed employees or contractors who do not have symptoms should remain at home or in a comparable setting and practice social distancing for the lesser of 14 days or other current CDC/public health guidance for the communicable disease in question.
    - a. As possible, these employees will be permitted to work remotely during this period of time if they are not ill.
    - b. The Mayor should be notified and appropriate Department Heads notified.
    - c. See the section titled Documentation of Work Hours and Locations for additional information on contact tracing
  2. CDC guidelines for COVID-19 provide that critical essential employees may be permitted to continue work following potential exposure, provided they remain symptom-free and additional precautions are taken to protect them, other employees and contractors, and our constituency/public.
    - a. Additional precautions will include the requirement of the subject employee or contractor, as well as others working in their proximity, to wear appropriate PPE at all times to limit the potential of transmission.
    - b. In-person interactions with the subject employee or contractor will be limited as much as possible.
    - c. Work areas in which the subject employee or contractor are present will be disinfected according to current CDC/public health protocol at least every hour, as practical. See the section on Cleaning and Disinfection for additional information on that subject.
    - d. If at any time they exhibit symptoms, refer to item B below.
    - e. The Mayor is responsible for ensuring these protocols are followed

Item 2 above may not apply if the public employer is not considered critical infrastructure. [Additional information can be found here](#)

- B. If an employee or contractor exhibits symptoms of the communicable disease that is the subject of the public health emergency:
  1. Employees and contractors who exhibit symptoms in the workplace should be immediately separated from other employees, customers, and visitors. They should immediately be sent home with a recommendation to contact their physician.
  2. Employees and contractors who exhibit symptoms outside of work should notify their supervisor and stay home, with a recommendation to contact their physician.
  3. Employees should not return to work until they have met the criteria to discontinue home isolation per CDC/public health guidance and have consulted with a healthcare provider.
  4. The Village of Youngstown will not require sick employees to provide a negative test result for the disease in question or healthcare provider's note to validate their illness, qualify for sick leave, or return to work; unless there is a recommendation from the CDC/public health officials to do so.

5. CDC criteria for COVID-19 provides that persons exhibiting symptoms may return to work if at least 24 hours have passed since the last instance of fever without the use of fever-reducing medications. If the disease in question is other than COVID-19, CDC and other public guidance shall be referenced.
  6. The Mayor must be informed in these circumstances and is responsible for ensuring these protocols are followed
- C. If an employee or contractor has tested positive for the communicable disease that is the subject of the public health emergency:
1. Apply the steps identified in item B, above, as applicable.
  2. Areas occupied for prolonged periods of time by the subject employee or contractor will be closed off.
    - a. CDC guidance for COVID-19 indicates that a period of 24 hours is ideally given before cleaning, disinfecting, and reoccupation of those spaces will take place. If this time period is not possible, a period of as long as possible will be given. CDC/public health guidance for the disease in question will be followed.
    - b. Any common areas entered, surfaces touched, or equipment used shall be cleaned and disinfected immediately.
    - c. See the section on Cleaning and Disinfection for additional information on that subject.
  3. Identification of potential employee and contractor exposures will be conducted
    - a. If an employee or contractor is confirmed to have the disease in question, the Mayor or their designee should inform all contacts of their possible exposure. Confidentiality shall be maintained as required by law.
    - b. Apply the steps identified in item A, above, as applicable, for all potentially exposed personnel.
  4. The Mayor must be notified in these circumstances and is responsible for ensuring these protocols are followed

We recognize there may be nuances or complexities associated with potential exposures, close contacts, symptomatic persons, and those testing positive. We will follow CDC/public health recommendations and requirements and coordinate with our local public health office for additional guidance and support as needed.

### Cleaning and Disinfecting

CDC/public health guidelines will be followed for cleaning and disinfection of surfaces/areas. Present guidance for routine cleaning during a public health emergency includes:

1. As possible, employees and contractors will clean their own workspaces in the beginning, middle, and end of their shifts, at a minimum.
  - a. High traffic/high touch areas and areas which are accessible to the public/constituents will be disinfected at least hourly.
  - b. DPW staff for Village Center and Village Garage. Contractor –currently magic Carpet Cleaning for the Village Center 6 days a week, rotating schedule.
2. Staff tasked with cleaning and disinfecting areas will be issued and required to wear PPE appropriate to the task. Contractor will provide their own supplies.
3. Soiled surfaces will be cleaned with soap and water before being disinfected.

4. Surfaces will be disinfected with products that meet EPA criteria for use against the virus in question and which are appropriate for that surface.
5. Staff will follow instructions of cleaning products to ensure safe and effective use of the products.

## Employee and Contractor Leave

Review and modify the following as necessary, though note that it is based upon current legal requirements

Public health emergencies are extenuating and unanticipated circumstances in which the Village of Youngstown is committed to reducing the burden on our employees and contractors. The *Families First Coronavirus Response Act* provided requirements related to the COVID-19 pandemic, which form the policies outlined below. This policy may be altered based upon changes in law or regulation, as applicable.

It is our policy that employees of the Village of Youngstown will not be charged with leave time for testing. Employees will be provided with up to two weeks (80 hours) of paid sick leave at the employee's regular rate of pay for a period which the employee is unable to work due to quarantine (in accordance with federal, state, or local orders or advice of a healthcare provider), and/or experiencing symptoms and seeking medical diagnosis.

Further, the Village of Youngstown will provide up to two weeks (80 hours) of paid sick leave at two-thirds the employee's regular rate of pay if the employee is unable to work because of a bona fide need to care for an individual subject to quarantine (pursuant to federal, state, or local orders or advice of a healthcare provider), or to care for a child (under 18 years of age) whose school or child care provider is closed or unavailable for reasons related to the public health emergency, and/or the employee is experiencing a substantially similar condition as specified by the CDC/public health officials. This provision may be modified if an employee is able to effectively work remotely and the need exists for them to do so.

Additionally, the Village of Youngstown will provide up to an additional 10 weeks of paid expanded family and medical leave at two-thirds of the employee's regular rate of pay where an employee, who has been employed for at least 30 calendar days by the Village of Youngstown, is unable to work due to a bona fide need for leave to care for a child whose school or child care provider is closed or unavailable for reasons related to the public health emergency. This provision may be modified if an employee is able to effectively work remotely and the need exists for them to do so.

Additional provisions may be enacted based upon need and the guidance and requirements in place by federal and state employment laws, FMLA, executive orders, and other potential sources.

Contractors, either independent or affiliated with a contracted firm, are not classified as employees of the Village of Youngstown, and as such are not provided with paid leave time by the Village of Youngstown, unless required by law.

## Documentation of Work Hours and Locations

In a public health emergency, it may be necessary to document work hours and locations of each employee and contractor to support contact tracing efforts. Identification of locations shall include on-site work, off-site visits. This information may be used by the Village of Youngstown to support contact tracing within the organization and may be shared with local public health officials.

Normal work week hours shall be followed unless adjusted by the Mayor. Each department head will be responsible for managing employee hours and noting where the employee was located (remote, on site) for those hours if the situation requires this information.

## Housing for Essential Employees

There are circumstances within a public health emergency when it may be prudent to have essential employees lodged in such a manner which will help prevent the spread of the subject communicable disease to protect these employees from potential exposures, thus helping to ensure their health and safety and the continuity of the Village of Youngstown's essential operations.

If such a need arises, hotel rooms are expected to be the most viable option. If hotel rooms are for some reason deemed not practical or ideal, or if there are no hotel rooms available, the Village of Youngstown will coordinate with the Niagara County Emergency Management Office to help identify and arrange for these housing needs. The Mayor of the Village of Youngstown will be responsible for coordinating this.
