

Recreation Report

Jeff Gruarin

June

GRANTS

We have been awarded the legacy grant. This is a (3) sport sampling program in late July/August. We will have disc golf (Sam Castiglione) baseball (Todd Muecklisch) Street Hockey (Stan Wojton) This will offer a mentoring program where we will have high school kids join to help facilitate and run the programs and have access to the coaches after the programs for future references and questions on coaching and sports.

Waiting for confirmation on the grant from Tower to extend the sensory program for (2) years with paid music and paid yoga sessions. This would cover ALL costs for 2 years

NANCY PRICE

We had 165 registered participants. According to the site it is the most registered runners ever. The griffon was fantastic and a lot of families stayed after and supported the restaurant.

Sensory Space

The next one is June 28, which is the last scheduled one and will have music therapy. The yoga session in may was excellent and we are ready to build off of these

Bartending

We have secured July 15th as the bartending date. ALL bartenders are confirmed along with their shirt sizes. We have a meeting coming up soon. We will continue to sell the Nancy Price beer. I dropped off ALL remaining orders to purchasers

Rec Summer Program

Going to release the vets park schedule in approximately a week. Falkner we have booked Nickel reptiles and I am in the process of planning an art program for 2 weeks at the park...If there is a timer on the splash pad I may cut back on the paid programs besides reptiles and focus and build the art program.

Kelsey informed me she may not be back so may have to hire someone asap!
